ATLAS

create your dance trails

training programme for
emerging dance artists
12 July — 12 August 2019

ATLAS – create your dance trails is a module-based training programme embedded in the ImPulsTanz – Vienna International Dance Festival. It allows young dance artists with first choreographic experience to intensively work on their professional development. The programme covers basic needs of emerging choreographers: access to studio space for research and creation, continued inspiration through top-class training possibilities, a broad range of international dance productions and the exchange with fellow artists from more than 100 countries as well as the peer-to-peer exchange within the group and a professional coach. On top, weekly showings give a chance to present works or work steps to an international audience.
